

## 2020 CCO Incentive Measure Benchmarks

25 September 2019

The Metrics & Scoring Committee has selected the measure set, adopted updated benchmarks and improvement target floors, and selected Challenge Pool measures for 2020. The 2020 benchmark decisions are reflective of improvements in CCO performance, and changes in CCO composition and member assignment expected for the first year of CCO 2.0 contracts.

The three measures included in the Challenge Pool are indicated with an asterisk in the measure column below.

Measure	2020 Benchmarks	2020 Improvement Targets
Assessments for children in DHS custody	Committee consensus: 90%	Minnesota method with 3 percentage point floor
Child immunization status (combo 2)	2019 national Medicaid 90 <sup>th</sup> percentile: TBD	Minnesota method with 2 percentage point floor
Cigarette smoking prevalence	2018 CCO statewide average: 26.6%	N/A – unable to calculate improvement target for 2020
Depression screening and follow-up	N/A, reporting only. Must report minimum population threshold and other reporting parameters as specified in OHA reporting guidance to qualify for 100% of quality pool (in addition to meeting 75% of remaining measures).	N/A
Diabetes: HbA1c poor control	2018 CCO statewide average: 23.4%	N/A – unable to calculate improvement target for 2020
Disparity measure: Emergency department utilization among members with mental illness*	2018 CCO 90 <sup>th</sup> percentile: 86.5 per 1,000 member months	Minnesota method with 3 percent floor
Immunizations for adolescents	2019 national Medicaid 75 <sup>th</sup> percentile: TBD	Minnesota method with 3 percentage point floor
Initiation and Engagement of Alcohol or Other Drug Abuse or Dependence Treatment (IET)	Component 1, Initiation - 2019 national Medicaid 75 <sup>th</sup> percentile for ages 18+: TBD  Component 2, Engagement - 2019 national Medicaid 75 <sup>th</sup> percentile for ages 18+: TBD  <i>~must meet <u>both</u> components to achieve measure~</i>	Minnesota method with 3 percentage point floor

Measure	2020 Benchmarks	2020 Improvement Targets
Members receiving preventive dental services, ages 1-5 (kindergarten readiness) and 6-14	<p>Component 1, Ages 1-5 (kindergarten readiness) - 2018 CCO 75th percentile w/ 6-month continuous enrollment criterion: 46.3%</p> <p>Component 2, Ages 6-14 - 2018 CCO 75th percentile w/ 6-month continuous enrollment criterion: 68.8%</p> <p><i>~must meet <u>both</u> components to achieve measure~</i></p>	Minnesota method with 3 percentage point floor
Oral evaluation for adults with diabetes*	2018 CCO 75 <sup>th</sup> percentile: 26.8%	Minnesota method with 3 percentage point floor
Screening, Brief Intervention and Referral to Treatment (SBIRT) for drug and alcohol use	<p>N/A, reporting only.</p> <p>Must report minimum population threshold and other reporting parameters as specified in OHA reporting guidance to qualify for 100% of quality pool (in addition to meeting 75% of remaining measures).</p>	N/A
Timeliness of postpartum care	2018 CCO statewide average: 61.3%	N/A – unable to calculate improvement target for 2020
Well-child visits in the 3 <sup>rd</sup> , 4 <sup>th</sup> , 5 <sup>th</sup> , and 6 <sup>th</sup> years of life (kindergarten readiness)*	2019 national Medicaid 75 <sup>th</sup> percentile: TBD	Minnesota method with 3 percentage point floor
