

## Adolescent Well Care Visits

### Measure Basic Information

**Name and date of specifications used:** HEDIS® 2017 Technical Specifications for Health Plans (Volume 2)

**URL of Specifications:** N/A

**Measure Type:**

HEDIS ☐ PQI ☐ Survey ☐ Other ☒ Specify: HEDIS-like – Computed using administrative claims only

**Measure Utility:**

CCO Incentive ☒ Core Performance ☐ CMS Adult Set ☐ CHIP Set ☒ State Performance ☒  
Other ☐ Specify:

**Data Source:** MMIS/DSSURS

**Measurement Period:** January 1, 2017 – December 31, 2017.

**2013 Benchmark:** 53.2% (administrative data only); 2011 National Medicaid 75<sup>th</sup> percentile

**2014 Benchmark:** 57.6% (administrative data only); 2013 National Medicaid 75<sup>th</sup> percentile

**2015 Benchmark:** 62.0% (administrative data only); 2014 National Medicaid 75<sup>th</sup> percentile

**2016 Benchmark:** 61.9% (administrative data only); 2015 National Medicaid 75<sup>th</sup> percentile

**2017 Benchmark:** 51.8% (administrative data only); 2016 National Medicaid 75<sup>th</sup> percentile

**Incentive Measure changes in specifications from 2016 to 2017:**

OHA is using HEDIS 2017 specifications for all 2017 measurement. Changes from HEDIS 2016 to 2017 include:

- Added clarification “services specific to the assessment or treatment of an acute or chronic condition do not count toward the measure” to the hybrid method section. Note as OHA is only using administrative data to calculate this measure, this change does not apply.

*HEDIS specifications are written for multiple lines of business and include a broad set of codes that could be used for measurement. Codes OHA is not using include, but are not limited to, LOINC, CPT, and HCPCS codes that are not open to Medicaid in Oregon. A general rule of thumb is that only CPT/HCPCS codes associated with the prioritized list will be used to calculate the measures; however as some measure specifications include denied claims, a claim that was denied because it included codes not on the prioritized list might still be counted toward the measure.*

*OHA is following HEDIS guidelines for Effectiveness of Care, Access/Availability of Care, Experience of Care, and Utilization measures to determine which services count. OHA is not using all codes listed in the HEDIS specifications.*

**Denied claims:** Included ☒ Not included ☐

## Measure Details

**Data elements required denominator:** Members age 12-21 years as of December 31 of the measurement year. See HEDIS® 2017 Technical Specifications for Health Plans (Volume 2) for details.

**Required exclusions for denominator:** See continuous enrollment criteria (below).

**Deviations from cited specifications for denominator:** None. OHA uses administrative claims only.

**Data elements required numerator:** At least one comprehensive well-care visit during the measurement year. See HEDIS® 2017 Technical Specifications for Health Plans (Volume 2) for details.

Adolescent well-care visits are defined by the following codes:

Well-Care Value Set			
CPT	HCPCS	ICD-9-CM Diagnosis*	ICD-10 Diagnosis*,**
99383-99385, 99393-99395	G0438, G0439	V20.2, V70.0, V70.3, V70.5, V70.6, V70.8, V70.9	Z00.00, Z00.01, Z00.121, Z00.129, Z00.5, Z00.8, Z02.0, Z02.1, Z02.2, Z02.3, Z02.4, Z02.5, Z02.6, Z02.71, Z02.79, Z02.81, Z02.82, Z02.83, Z02.89, Z02.9
Codes in the Well-Care Value Set that only apply to infants			
99381, 99382, 99391, 99392, 99461		V20.31, V20.32	Z00.110, Z00.111

\*Diagnosis codes do not have to be primary. Although HEDIS 2017 value set tables still include ICD-9 codes, they no longer apply in the 2017 measurement year.

\*\*Note: Z00.8 and Z02.xx ICD-10 codes are not covered under OHP administrative rules or on the Prioritized List as of 10/1/2016, however this measure does include denied claims.

**Required exclusions for numerator:** None.

**Deviations from cited specifications for numerator:** HEDIS® requires well-care visits to be with a primary care practitioner or OB/GYN practitioner. OHA specifications drop this requirement and count all well-care visits by any provider types. All other HEDIS® specifications are used to define a well-care visit.

**What are the continuous enrollment criteria:** The measurement year.

**What are allowable gaps in enrollment:** No more than one gap in continuous enrollment of up to 45 days during the measurement year.

**Define Anchor Date (if applicable):** December 31 of the measurement year.
