

Patient Centered Primary Care Home (PCPCH) Enrollment

Measure Basic Information

Name and date of specifications used: OHA developed these specifications based on recommendations from OHA's Metrics and Scoring Committee, December 2012.

URL of Specifications: N/A

Measure Type:

HEDIS ☐ PQI ☐ Survey ☐ Other ☒ Specify: OHA-developed

Measure Utility:

CCO Incentive ☒ Core Performance ☐ CMS Adult Set ☐ CHIP Set ☐ State Performance ☒
Other ☐ Specify:

Data Source: Patient Centered Primary Care Home (PCPCH) enrollment by tier via self-report from CCOs; total CCO enrollment via MMIS/DSSURS

Measurement Period: This measure is looking for total PCPCH enrollment by the end of calendar year 2015 (December 2015). OHA will collect updated PCPCH enrollment rates from CCOs throughout 2015, but the final calculation will be based on PCPCH enrollment as of December 31, 2015.

Benchmark: The PCPCH Enrollment measure does not have a benchmark. Ideally, 100 percent of CCO members would be enrolled in a Tier 3 PCPCH, as per Metrics & Scoring Committee consensus, but CCOs receive credit for this measure on a sliding scale, based on the overall percentage of their membership enrolled in a PCPCH.

Incentive Measure Changes in specifications from 2014 to 2015:

None.

Denied claims: N/A

Measure Details

Data elements required denominator: Total CCO enrollment for the same month of the PCPCH enrollment snapshot (see numerator) multiplied by 3. OHA produces total CCO enrollment from MMIS/DSSURS as of the 15th of the month.

For example, the December 2015 snapshot of PCPCH enrollment will use December 15th, 2015 total CCO enrollment (times 3) for the denominator.

Required exclusions for denominator: None.

Deviations from cited specifications for denominator: N/A

Data elements required numerator: Number of CCO members enrolled in PCPCHs by tier, using the agreed-upon formula: Tier 1 enrollees are multiplied by one; tier 2 enrollees are multiplied by two; tier 3 enrollees are multiplied by three; and the results are summed.

$$(\text{Tier 1 enrollees} * 1) + (\text{Tier 2 enrollees} * 2) + (\text{Tier 3 enrollees} * 3) = \text{numerator}$$

CCOs are contractually obligated to report on the number of members assigned to providers in PCPCH practices on a quarterly basis. CCOs can also provide additional information on the number of health care teams or clinics meeting PCPCH standards, and the number of primary care practitioners accepting members in a PCPCH by tier.

CCOs report on the number of members assigned to providers in PCPCH practices quarterly, via online survey: <https://www.surveymonkey.com/s/PCPCHReport>

Required exclusions for numerator: None.

Deviations from cited specifications for numerator: N/A

What are the continuous enrollment criteria: None.

What are allowable gaps in enrollment: None.

Define Anchor Date (if applicable): None.
